

## SharePoint Quick Start Package

*Get your Microsoft Office SharePoint Server solution off the ground quickly with Central Solution's SharePoint Quick-Start Package.*

### Overview

In times of economic downturn it is essential that all organisations take proactive measures to save money whilst boosting efficiency. Businesses need to be ahead of their competition and remain efficient without spending large sums of capital. IT solutions therefore have to deliver wide ranging effects on productivity, efficiency and return on investment.

At Central Solutions we believe that SharePoint is such a solution. SharePoint helps boost employee productivity, remove duplication of effort, and streamline business processes whilst sharing important data.

Central Solution's SharePoint **KickStart** is a new initiative designed for business or departments wanting to utilise the basic SharePoint product features and/or investigate the possible customisations and extensions.

### What's Included?

**Workshops on business requirements**

**Requirements analysis**

**Assessment of the suitability of SharePoint for your business or application**
